Stock Carries Steel Issues

New York, July 17.—Sharp advances in war stocks under leadership of Crucible Steel carried many of the industrial shares into new territory for this movement. Rails were heavy, Southern Pacific again showing a drooping attitude. The advance which began late yesterday continued at the beginning of business today, gains of from a fraction to a full point being witnessed throughout the list. Crucible Steel immediately jumped to the front and on active dealings rose to the new high price of 51, a gain of more than 6 points. At this level profit-taking resulted in a drop to 471-4, a recovery to 491-4, from which there was a recession of 11-2 points at the close.

Railroad shares were again under pressure and the first carried to the first and the first country. By the first country is formed that foreigners have bought more wheat in the United States than is generally believed.

Com and oats were mainly lower, the former showing a gain of 18c for July white the deferred mouth were "active lower. Oats lost % to %c. Cash sales were 180,000 bushels of com and 120,000 bushels of com and 120,00 Railroad shares were again under pres-sure, nobody seeming to have a good word for them. New York, July 7—After showing armness, its list selling to a net advance of 8 to 12 points, cotton receded today on a falling off in the demand and increased offerings of long stuff. The close was barely steady at a net decline of 5 points to an advance of 1 point. There was, however, no general desire to sell over the week, with the drought in Texas, it was asserted by many, becoming more serious. diate purchaser 1,000 shares

No tangible reason for the strength of crucible Steel has been forthcoming rom the offices of the company. When asked today if there was any semblance of truth in the reports that the com-pany's new plants were to cost \$20,000,000 he general manager said he did not

CHICAGO GRAIN.

Into New Territory.

Chicago, July 17.—The fact that there was reselting of July and September wheat by some of the larger receivers caused a general selling morement today with a consequent decline in prices. July lost 3% and the deferred months were off Saic. In addition good-sized hedges were put out against the new crop. With improved weather in the southwest, harresting is being pushed.

The new wheat received here today was in fair condition. The total receipts were 23 cars. The cash trade was light, only 5,000 bushels changing hands. The seaboard reported sairs of the new crop of 750,000 bushels.

The bearish feeling in wheat was reflected partly today when the selling became general. This indicates that with a heavy movement of the new crop there will be much lower prices unless the receipts are well taken care of.

> Starvation In Mexico City. Editor of The Washington Herald: It is not to be supposed that the conditions in Vera Cruz in regard to food supply call for the distribution of Red Cross supplies. It is a port and food supplies can be got from Havana. from Progresso, and from the United States at any time. The supplies should be sent to the starving population of Mexico City. Those supplies are ter-ribly needed, and the Red Cross should

not fail to ask contributions for the relief of that city of doom-seven times besieged and looted. "Outside Agency" Caused Blast.
